 R29² Same, v. 2: Appendix and preliminary report. 1906.

Y3.P96¹: Public Land Commission, 1879-80

[This commission appointed by President Hayes, July 1, 1879, under act of Mar. 3, 1879 (Stat. L. v. 20, p. 394), and continued by act of June 16, 1880 (Stat. L. v. 21, p. 245), was directed by law to codify the land laws and submit a plan for the classification of the public lands, the work to be finished by Jan. 1, 1881. The commissioners were James A. Williamson, commissioner of General Land Office, Clarence King, geologist, Alexander T. Britton, John W. Powell, and Thomas Donaldson. Their publications are said to exhibit the entire legislation of Congress, up to and through the 2d session of the 46th Congress, upon which public land titles in the States and Territories have depended, with a digest of all Indian treaties affecting titles, and tables of judicial and executive decisions. After the commission ceased to exist, later editions were issued which embraced the laws passed up to the end of the 47th Congress, 1st session, but as the later editions are only continuations of the publications of the commission, brought down to date by the original compiler where possible, in other cases the work being done by the General Land Office, they are classed here with the publications of the commission.]
