

SI. SMITHSONIAN INSTITUTION

[Founded upon the bequest of James Smithson, of London, England, who gave his entire property to the United States to establish an institution for the increase and diffusion of knowledge among men.

Incorporated by act of Congress approved Aug. 10, 1846 (Stat. L. v. 9, p. 102).

The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution. All publications of the Ethnology Bureau (SI 2.) and the National Museum (SI 3.) are, however, public documents, as are also the annual reports submitted to the secretary of the Smithsonian Institution by the American Historical Association (SI 4.) and the National Society of Daughters of American Revolution (SI 5.).

See, for histories of Smithsonian Institution, SI 1.2:Sm6²⁻⁷.]

SI 1.6^a: Smithsonian contributions to knowledge (separates)

(CT)

SI 1.7: Smithsonian miscellaneous collections

(v. nos.)

[These 8° publications, including all issued in that form by the Smithsonian Institution except the annual reports, have been published since 1862, volumes being completed at irregular times. The separate papers are often published and circulated a long time before being incorporated into a volume. Published at the expense of the Smithsonian Institution, they are not strictly Government publications, but as they are usually regarded as public documents and have free transmission by mail, they are listed here.]

- v. 1, 3 pts.
 v. 2, 10 pts.

† Prior to Dec. 31, 1909, the period covered by this Checklist, the only portions of v. 27 of Smithsonian contributions to knowledge which had been issued were Smithsonian publication 801, 2 editions, and Smithsonian publication 884. These bore no volume number. In 1911, no. 3 of v. 27 was issued; the advertisement in this number designates the former publications as nos. 1 and 2 of the volume.

‡ SI 1.11:

† Includes index to v. 1–10.

‡ This Checklist ends with the publications of the calendar year 1909. July, 1910, the Smithsonian Institution acquired the series of publications on the Harriman Alaska Expedition of 1899, of which v. 1–13 (except v. 6 and 7) were first privately printed by Doubleday, Page & Company, New York, 1902–05. The series has been transferred to the Smithsonian Institution by Mrs. Edward H. Harriman and the work will hereafter be known as the Harriman Alaska series of the Smithsonian Institution. Volumes 1–5 and 8–13 were rebound in 1910 by the Smithsonian Institution, with added Smithsonian title-pages. These special title-pages will also be used for v. 6 and 7, at this date (1911) in preparation, and for any additional volumes that may appear hereafter. This new Smithsonian series necessitates an additional class under SI 1., the series title of which is as follows:

SI 1.11: Harriman Alaska series large 8°
(v. nos.)

SI 2. ETHNOLOGY BUREAU

[Ethnological research was formerly part of the work of the Geographical and Geological Survey of Rocky Mountain Region (I 17.), which was merged in the Geological Survey (I 19.) by act approved Mar. 3, 1879 (Stat. L. v. 20, p. 394). In that act Congress provided that the ethnological work should be carried on under the Smithsonian Institution. Thus the Ethnology Bureau was established.

Besides publishing the annual reports and bulletins authorized by Congress, the Ethnology Bureau has completed the publication of Contributions to North American ethnology (I 17.5:), a series which was begun by the former Geographical and Geological Survey of Rocky Mountain Region under the direction of the Interior Department.

The name "Bureau of Ethnology" appears on the title-pages of annual reports up to and including the 15th report, 1894, since which the form "Bureau of American Ethnology" has been used. The latter is the official name of the bureau.]

SI 4. AMERICAN HISTORICAL ASSOCIATION

[The American Historical Association was formed at Saratoga, Sept. 9, 1884. The "Papers" of the association, consisting of reports of the proceedings of the annual meetings and some of the historical monographs that had been read, were published by Putnam, 1885-91, and have been collected in 5 substantial volumes, the copyright being held by the association. These volumes, giving the proceedings and papers of the first 7 annual meetings, are not public documents, but because of their historic interest and also on account of the fact that they were the forerunners of the annual reports of the association, a class for them has been assigned in this Checklist; see SI 4.5:

By act of Congress approved Jan. 4, 1889, the association was incorporated, the act providing, that "said association shall report annually to the secretary of the Smithsonian Institution concerning its proceedings and the condition of historical study in America; said secretary shall communicate to Congress the whole of such reports or such portions thereof as he shall see fit." From that time the proceedings and historical monographs of the association have been issued by the Government in 1 or 2 volumes yearly, under the title, Annual reports of American Historical Association (SI 4.1). The first 2 issues in this form, those for 1889 and 1890, duplicate the proceedings of the 6th and 7th meetings, already published in the Papers, and also partially duplicate the monographs in v. 4 and 5 of the Papers. The issue of the Papers was discontinued after the 7th meeting.]

T. TREASURY DEPARTMENT

[The Treasury Department was the third Executive Department, having been created by act approved Sept. 2, 1789 (Stat. L. v. 1, p. 65).]

T1. SECRETARY

T1.1: Annual reports on state of finances [or Finance reports]

[By the act organizing the Treasury Department approved Sept. 2, 1789 (Stat. L. v. 1, p. 65), it was made the duty of the Secretary to prepare and report estimates of public revenue and public expenditures, and to make report and give information to Congress or either branch thereof in person or in writing, as required, respecting all matters referred to him by the Senate or House or which appertain to his office. Alexander Hamilton, the first Secretary of the Treasury, made no annual reports, but submitted papers on the public credit, a national bank, manufactures, and the establishment of a mint. Oliver Wolcott, who succeeded Hamilton as Secretary of the Treasury, made two reports on the receipts and expenditures of the Government, one to the Committee of Ways and Means, Apr. 27, 1798, and the other to the House of Representatives Feb. 21, 1800.

By act approved May 10, 1800 (Stat. L. v. 2, p. 79), it was made the duty of the Secretary of the Treasury to prepare and lay before Congress at the commencement of every session a report on the subject of finance containing estimates of public revenue and public expenditures. The first regular annual report is that of Albert Gallatin, 1801, and thereafter there is a consecutive series.

Beginning with 1817, the annual reports have appeared regularly in the Congressional set.

The Public Documents Library has an original print of the 1808 report, 7 p. f^o, and a print of the Sept. 5, 1837, report, 16 p. 8^o. Both are without the accompanying papers, which are included in the document editions thereof.

Reprints of the reports on the finances, Apr. 11, 1789-May 16, 1828, appear in American State papers, finance, v. 1-5; see serial nos. 09-013.

Another series of reprints was issued by order of the Senate. This series consists of 7 v., printed at different times from 1828 to 1851 and including reports 1790-1849. These volumes are listed below preceding the listing of the individual annual issues.
